

# AI-POWERED NETWORKS: TRANSFORMING TELECOMMUNICATION & CONNECTIVITY

Explore how AI and machine learning makes networks smarter, faster, and more secure!

**Saturday,  
24 May 2025**

**9.00 – 11.00 AM**

**DEWAN KEJORA  
N28A, UTM**

## Agenda:

- How telecom companies use AI to improve network efficiency.
- AI in fraud detection, predictive maintenance, and customer analytics.
- Hands-on session: Using AI for network optimization

## Benifits:

- Enhance Knowledge & Skills
- Practical & Hands-On Experience
- UTM Merit & E-Certificate Provided

**Speaker**

**Ts. Jacky Cheong**

Head of Enterprise  
Data Governance
